ABOUT US

Leather, Made Properly — In-House in Sialkot

Safe-T TECH International is a Sialkot-based clothing manufacturer, and leather is one of our core crafts. Our leather division runs **fully in-house** — pattern making, cutting, stitching, hardware fitting, finishing and quality control all happen under one roof, so nothing about your product is left to chance or to third parties.

We work in **any leather quality your market requires**: A Grade and AB Grade selections, full-grain hides, lambskin and premium calfskin. Trims and accessories are readily available in the Sialkot market, and special trims are sourced exactly to your instructions. Custom linings, premium hardware and private-label finishing are part of our standard service — your brand, your labels, your packaging.

We manufacture for brands and retailers across **North America and Europe**, with low trial quantities that let you test a style before you commit to volume.

LEATHER & MATERIALS

Know Your Leather

Cowhide

The workhorse for jackets and pants. Strong, structured, 0.9–1.3 mm. Takes quilting, washing and vintage finishes beautifully.

Sheepskin / Lambskin

Soft, light and supple, 0.7–1.1 mm. The premium choice for women's styles, bombers and tailored trousers.

Goatskin & Suede

Fine-grained goatskin and velvet-napped suede, 0.8–1.0 mm. Rich colour, soft hand-feel, elegant drape.

Premium Calfskin

Fine, even grain with a luxury finish — available on request for top-tier ranges.

Grades & Selection

- **A Grade** — cleanest selection, minimal natural markings, for premium ranges.
- **AB Grade** — excellent commercial selection, the smart value choice.
- **Full-grain** — the natural surface kept intact; ages with character.
- Every hide is inspected before cutting; faulty panels are rejected, not hidden.

Linings

- Viscose, satin, quilted polyester, cotton twill and mesh — or your custom lining, printed or branded.
- Trousers and pants are part-lined to the knee for comfort.

Hardware

- Quality metal zips (YKK or equivalent to your specification), metal snaps, buttons, rivets and buckles.
- Finishes: antique silver, gunmetal, brass, gold-tone and matte black.
- Special trims are sourced exactly to your instructions.

Care Note

- Leather improves with wear. Recommend to your customers: wipe clean, condition occasionally, store away from direct heat, and use a specialist leather cleaner when needed. Suede: brush gently, keep dry.

CRAFTSMANSHIP

How Each Piece Is Made

1. **Pattern & Grading**
   Your design or tech file is turned into patterns, graded across the full size range.
2. **Leather Selection & Cutting**
   Hides are inspected panel by panel; cutting is matched for tone and grain.
3. **Stitching**
   Skilled machinists assemble each piece — quilting, panels and seams stitched to specification.
4. **Hardware & Lining**
   Zips, snaps, buttons and your chosen lining are fitted and finished.
5. **Finishing**
   Edges are dressed, surfaces conditioned, threads trimmed and shapes pressed.
6. **Quality Control**
   Every piece is checked — measurements, stitching, hardware and finish — before packing.

Fitting Notes

Leather relaxes slightly with wear, so our patterns are graded with a small wearing ease. Slim and skinny styles are cut close; relaxed styles carry extra room through the thigh and seat. If your market prefers a different fit block, we grade to your measurements instead.

ORDERING GUIDE

From Design To Delivery

1. **Share Your Design**
   Send your tech file, design or even a reference picture — plus leather, colour and size requirements.
2. **Sampling**
   We make your sample in 7–10 working days and share photos (or ship it) for your approval.
3. **Approval & Order**
   Once the sample is approved, confirm quantities and sizes. Payment and shipping terms are agreed in writing on the order confirmation.
4. **Production, QC & Dispatch**
   Fully in-house production in 25–35 days for a first order — every piece QC-checked before careful packing and dispatch.

15–50 pcs	7–10 days	25–35 days	Faster
Minimum order per design	Sampling	First-order production	Repeat orders are expedited

> **Made to your design** — your leather quality, your sizes, your brand tags (‘Made in [Your Country]’ on request, otherwise ‘Made in Pakistan’).

Leather is prepared for your custom order, which is why a first order takes 25–35 days regardless of quantity. Once your leather, patterns and trims are established with us, repeat orders move significantly faster.
