ABOUT US

Women's Fashion, Made Under Your Label

Safe-T TECH International is a Sialkot-based clothing manufacturer with a dedicated women's fashion division. We build **complete all-season ranges** — summer dresses and linen sets, athleisure and yoga lines, heavyweight winter fleece, tailored coats and everyday loungewear — all cut, stitched, finished and quality-checked under one roof.

Our partners are **boutiques, online brands and retailers** across North America and Europe who need a manufacturer that starts small and grows with them. Trial quantities of 15–50 pieces per design let you test a style, a print or a whole range before committing to volume — with the same patterns, fabrics and finishing held ready for your reorders.

Everything in this catalogue can be produced **under your own label**: your tags, your packaging, your prints and embroidery. Send us a design or a tech file and we return a finished sample in 7–10 working days.

FABRICS & FINISHES

The Fabrics Behind The Range

Cotton & Jersey

Single jersey, interlock and heather blends from 160–300 GSM. Bio-washed and pre-shrunk for a clean, stable surface — the base of our dresses, tees and lounge sets.

Linen & Wovens

Linen-cotton blends, rayon challis, voile and georgette. Garment-washed for softness; the flowing fabrics behind our summer dresses and co-ords.

Satin & Silk-Touch

Sandwashed satin with a soft sheen for dresses and pajama sets — smooth seams, careful pressing, a finish that photographs like silk.

Ribbed Knits & Fleece

Fine ribbed knits and seamless athleisure knits, plus brushed fleece from 350 up to a heavyweight 500 GSM for hoodies and winter sets.

Prints

- All-over floral and custom prints — your artwork or developed with you.
- Placement prints for tees and t-shirt dresses, matched across sizes.
- Colourfast dyeing so prints and colours survive wash after wash.

Yarn-Dyed & Solids

- Core colours held consistent across reorders and across styles in a range.
- Custom colours dyed to your swatch on request.

Embroidery & Embellishment

- Machine embroidery for logos, monograms and decorative work.
- Applique, lace trims, piping and contrast details finished by hand.
- Heat-set pleating and quilting done in-house.

Quality Habits

- Fabric is inspected and shade-banded before cutting; every garment is measured, checked and pressed before packing.

CUSTOMIZATION & PRIVATE LABEL

- Your size chart and grading followed exactly, XS–XXL and beyond.

Decoration

- Custom prints, embroidery and embellishments placed to your artwork.

MADE TO YOUR DESIGN

Send us your design, tech file or even a photo — we manufacture it exactly to your specifications: your fabric quality, your sizes, your colours. Your brand, your tags: we sew in **your brand label**, and a ‘Made in [Your Country]’ tag if you want it — otherwise we use our standard ‘Made in Pakistan’ tag.

Size Chart — Women XS to XXL

Standard Safe-T TECH grading for women's fashion and athleisure. Measurements are body measurements. Your own size chart and grading can be followed exactly — just share it with your tech file.

XXL	42 in · 107 cm	35 in · 89 cm	45 in · 114 cm	44.5 in · 113 cm

Dresses & Tops

Graded on bust and waist with wearing ease by style: fitted dresses carry 1–2 in of ease, relaxed and oversized styles carry more. Maxi and midi lengths are graded proportionally; petite and tall lengths on request.

Leggings & Athleisure

Graded on waist and hip with negative ease — the knit does the work. Four-way stretch fabrics measure 2–4 in below body size at rest; waistbands are graded to sit firm without digging in.

Sets & Co-ords

Tops and bottoms in a set share one size label and one measurement standard, and are shade-matched in the same dye lot so the set always reads as one piece.

Fitting Notes

Knit garments relax slightly with wear, so our patterns are graded with a small wearing ease. If your market prefers a different fit block — closer, easier, longer — we grade to your measurements instead at no change to sampling time.
