All styles in this catalogue are produced to order, to the buyer's own tech file, fabric specification, size run and labelling. No prices are shown — every style is quoted individually against your specification and quantity.

WHO WE ARE

About Safe-T TECH International

Safe-T TECH International is an OEM / ODM clothing manufacturer based in **Sialkot, Pakistan** — a city with a century-long tradition of export manufacturing. We produce workwear, protective clothing and uniforms for European workwear programmes, building every garment **fully in-house**: pattern, cutting, stitching, finishing, quality control and packing all happen under one roof, under our own supervision.

Our team of **30 people** runs dedicated lines for woven workwear, knitted tops, fleece and softshell, insulated and padded garments, rainwear, medical scrubs and protective gloves. Because nothing is outsourced, we control fabric, construction and finishing at every step — and we can hold a buyer's specification exactly, order after order.

We work the way European workwear brands work: to a tech file, to a size ratio, to a delivery date. Trial orders are welcome — a programme can start with a limited run and grow on proven quality.

30
Employees — cutters, machinists, finishers, QC and packing

100%
In-house production — cutting to final packing

7–10 days
Typical sampling time from tech file to finished sample

20 pcs
Trial minimum per style on workwear programmes

AQL 2.5
Final inspection standard on every order

EU
Built for European size runs, ratios and labelling

Alongside garment manufacturing, Safe-T TECH also produces sports teamwear, fashion and athleisure, leather garments and streetwear for brands in Europe and North America — the same factory, the same inspection discipline.

AT A GLANCE

One Factory, the Full Workwear Wardrobe

This catalogue is organised the way your range is organised. **Section A** answers your current inquiry style by style, on your own specifications. **Sections B to G** then open the full wardrobe we can produce behind it — protective clothing, warning clothing, insulated clothing, rainwear, medical scrubs and gloves — so one factory can carry the whole programme.

What runs on our lines

- **Woven workwear:** twills and canvases 190–350 g/m² — worksuits, jackets, trousers, bib pants, shorts, aprons
- **Knits:** T-shirts, polos, sweatshirts and fleece to 340 g/m²
- **Technical shells:** bonded softshell, PU-coated rainwear, padded and quilted insulation
- **Warning clothing:** fluorescent fabrics with sewn or transfer reflective tape
- **Healthcare:** scrubs, coats and theatre wear in industrial-wash fabrics
- **Hand protection:** leather, coated, cut-resistant and specialist gloves

Programmes we are set up for

Seasonal workwear collections, framework and tender supply, private-label ranges for distributors, and uniform programmes for end-user companies — all produced to the buyer's tech file, size ratio and label.

HOW WE WORK WITH BRANDS

Made to Your Design

MADE TO YOUR DESIGN

We manufacture **exactly to your tech file** — your design, your fabric, your sizes, your construction details. Send us the specification and we build the garment to it, stitch for stitch.

Your label, your brand. We sew in **your own brand label** as standard on private-label programmes. On request we also add a **"Made in [Your Country]"** tag; where no such tag is requested, garments are labelled "Made in Pakistan". Care labels, size labels, hang tags and packaging are all produced to your artwork.

Your fabric or ours. Produce in fabric you nominate or consign, or let us source the equivalent locally against your swatch and lab-dip approval — colour, weight and composition matched before bulk cutting.

Your sizes. European size runs S–XXXL for tops and EU 46–62 for trousers and shorts, graded to your measurement chart, packed to your size ratio — including the ratios quoted in Section A of this catalogue.

Your details. Reflective tape layout, pocket configuration, closures, embroidery, prints and trims are all built to specification. If it is on the tech file, it is on the garment.

What we need from you

- A tech file, a sample garment, or even clear photographs with measurements
- Fabric specification (composition, weight, colour) or a swatch to match
- Size run and ratio, labelling and packing instructions

From that, we return a quotation, a counter-sample for approval, and a production plan with a firm date.

PRODUCTION & QUALITY

How Every Order Is Made & Checked

1

Pattern & Sample

Patterns are made or checked against your tech file; a counter-sample is sewn and sent for approval before bulk.

2

Fabric Inspection

Incoming fabric is checked for weight, composition, shade and defects before it is released to cutting.

3

Cutting

Marker making and cutting in-house, panels bundled by size and shade lot to keep every garment consistent.

4

Stitching

Line production with in-line checks at set points — seams, reflective tape placement, pockets and closures verified as garments move.

5

Finishing

Thread trimming, pressing, measurement audit against your size chart, and metal detection where required.

6

AQL 2.5 Inspection

Final inspection to AQL 2.5 before packing, with a documented pre-shipment inspection report and photographs included with every order.

Independent inspection welcome. Buyers may nominate their own third-party inspection company to verify any order before dispatch — we cooperate fully with external inspectors on our premises, and our own documented inspection (measurements, workmanship, packing, photographs) is included as standard.

Packing follows your instruction: individual polybag, ratio packing by size, or bulk — with your barcodes, carton marks and shipping marks applied in-house.

STANDARDS

Built to European Requirements

Garments in this catalogue are **manufactured to the construction and material requirements of** the European standards below — the same normative framework used across European workwear programmes. Fabric selection, reflective-tape configuration, seam construction and size designation are all executed against these requirements, and test reports for nominated fabrics can be arranged through accredited laboratories where a programme requires them.

EN ISO 13688	Protective clothing — general requirements: sizing, ergonomics, marking and innocuousness of materials.
EN ISO 20471	High-visibility clothing — fluorescent fabrics and retro-reflective tape layout for warning garments.
EN ISO 11611	Protective clothing for use in welding and allied processes — fabric and construction requirements.
EN ISO 11612	Clothing to protect against heat and flame — material and garment construction requirements.
EN ISO 1149-5	Electrostatic properties — antistatic material and design requirements.
EN 17353	Enhanced-visibility equipment for medium-risk situations — Type B2 / B3 reflective configurations.
EN 342	Ensembles and garments for protection against cold below −5 °C — insulation and construction.
EN 14058	Garments for protection against cool environments down to −5 °C.

Where a programme requires certified end-products, certification is arranged with the buyer through a notified body against production samples — we build the garment to the standard; the certification path is agreed style by style.

A

Produced to Your Current Inquiry

The fourteen styles of your current workwear inquiry, produced exactly to the specification, fabrics and size ratios you issued — shown here as we would manufacture them: your fabrics, your ratios, your label.

14 styles	43,000 pcs inquiry volume	Your size ratios	Your label inside

This section mirrors your inquiry document style by style. Every page carries the full specification — fabric, weight, construction and the size ratio as issued — so your team can check our understanding line by line. Where anything differs from your intention, tell us and the sample will follow your correction.

A1 · SECTION A — YOUR INQUIRY

Hi-Vis Sweatshirt — Orange

Warning clothing · zip front

Fabric	Cotton 62% / polyester 35% / elastane 3%, brushed inside
Weight	250 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip; ribbed cuffs and hem; two side pockets; stand collar
Sizes	S – XXXL, European size run

Production Notes

Fluorescent orange sweatshirt with a full front zip and transfer reflective bands. The cotton-rich 250 g/m² fabric with elastane holds its shape through the working day, and the brushed inside keeps warmth without bulk.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A2 · SECTION A — YOUR INQUIRY

Hi-Vis Sweatshirt — Yellow

Warning clothing · zip front

Fabric	Cotton 62% / polyester 35% / elastane 3%, brushed inside
Weight	250 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip; ribbed cuffs and hem; two side pockets; stand collar
Sizes	S – XXXL, European size run

Production Notes

The same 250 g/m² zip-front sweatshirt in fluorescent yellow — one construction, two warning colours, so a programme can run both colourways from a single pattern.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A3 · SECTION A — YOUR INQUIRY

Hi-Vis T-Shirt — Orange

Warning clothing · short sleeve

Fabric	Cotton 55% / polyester 45% single jersey
Weight	160 g/m²
Reflective	Transfer (heat-applied) reflective bands — two around torso, one over each shoulder
Construction	Crew neck with ribbed collar; short sleeves; side-seamed; shoulder-to-shoulder tape
Sizes	S – XXXL, European size run

Production Notes

Lightweight 160 g/m² warning T-shirt for warm conditions and layering. Transfer reflective bands keep the garment light and flexible — no sewn tape stiffness — with the band layout mirrored front and back.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A4 · SECTION A — YOUR INQUIRY

Hi-Vis T-Shirt — Yellow / Navy

Warning clothing · two-tone

Fabric	Cotton 55% / polyester 45% single jersey
Weight	160 g/m²
Reflective	Transfer (heat-applied) reflective bands — two around torso, one over each shoulder
Construction	Crew neck with ribbed collar; short sleeves; side-seamed; shoulder-to-shoulder tape
Sizes	S – XXXL, European size run

Production Notes

Two-tone execution of the 160 g/m² T-shirt: fluorescent yellow body with a navy lower panel that hides workplace soiling, transfer reflective bands front and back.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A5 · SECTION A — YOUR INQUIRY

Hi-Vis T-Shirt — Black / Yellow

Warning clothing · contrast bands

Fabric	Cotton 55% / polyester 45% single jersey
Weight	160 g/m²
Reflective	Transfer (heat-applied) reflective bands — two around torso, one over each shoulder
Construction	Crew neck with ribbed collar; short sleeves; side-seamed; shoulder-to-shoulder tape
Sizes	S – XXXL, European size run

Production Notes

Black T-shirt body with fluorescent yellow shoulder yoke and transfer reflective bands — a contrast layout widely used in logistics and event programmes. Same 160 g/m² cotton-poly jersey.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A6 · SECTION A — YOUR INQUIRY

Hi-Vis Polar Fleece 280 — Yellow / Black

Warning clothing · insulated layer

Fabric	100% polyester polar fleece, anti-pill
Weight	280 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem
Sizes	S – XXXL, European size run

Production Notes

Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem; segmented transfer reflective bands around torso and sleeves; anti-pill finish on both faces.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A7 · SECTION A — YOUR INQUIRY

Hi-Vis Polar Fleece 280 — Orange / Navy

Warning clothing · insulated layer

Fabric	100% polyester polar fleece, anti-pill
Weight	280 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem
Sizes	S – XXXL, European size run

Production Notes

Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem; segmented transfer reflective bands around torso and sleeves; anti-pill finish on both faces.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A8 · SECTION A — YOUR INQUIRY

Hi-Vis Polar Fleece 340 — Yellow / Black

Warning clothing · heavy insulated layer

Fabric	100% polyester polar fleece, anti-pill
Weight	340 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem
Sizes	S – XXXL, European size run

Production Notes

The heavyweight execution: 340 g/m² polar fleece for cold-season warning clothing. Full front zip, zip pockets, elasticated cuffs and hem, transfer reflective bands around torso and sleeves.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A9 · SECTION A — YOUR INQUIRY

Hi-Vis Polar Fleece 340 — Orange / Navy

Warning clothing · heavy insulated layer

Fabric	100% polyester polar fleece, anti-pill
Weight	340 g/m²
Reflective	Transfer (heat-applied) reflective bands around torso and sleeves
Construction	Full front zip with chin guard; two zip side pockets; elasticated cuffs and hem
Sizes	S – XXXL, European size run

Production Notes

340 g/m² polar fleece in fluorescent orange with navy contrast panels — maximum warmth in the fleece range, built on the same pattern and size ratio as the 280 g/m² version.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	5%	21%	32%	24%	13%	5%

A10 · SECTION A — YOUR INQUIRY

Work Trousers — Navy / Orange

Protective clothing · hi-vis leg bands

Fabric	Polyester 64% / cotton 33% / elastane 3% twill
Weight	245 g/m²
Construction	Triple stitching on main seams; reinforced stress points; button and zip fly (trousers)
Reflective	Reflective band around each leg
Sizes	EU 46 – 62, European size run

Production Notes

245 g/m² polycotton-elastane work trousers with triple stitching throughout and a reflective band at each leg. Navy body with fluorescent orange accents — cut for movement, built for daily site work.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

EU Size	46	48	50	52	54	56	58	60	62
Share of quantity	5%	12%	22%	24%	18%	11%	5%	2%	1%

A11 · SECTION A — YOUR INQUIRY

Work Trousers — Black / Lime

Protective clothing · hi-vis leg bands

Fabric	Polyester 64% / cotton 33% / elastane 3% twill
Weight	245 g/m²
Construction	Triple stitching on main seams; reinforced stress points; button and zip fly (trousers)
Reflective	Reflective band around each leg
Sizes	EU 46 – 62, European size run

Production Notes

The same trouser in black with lime-yellow accents and leg bands. One pattern, two colourways; triple-stitched main seams and reinforced pockets throughout.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

EU Size	46	48	50	52	54	56	58	60	62
Share of quantity	5%	12%	22%	24%	18%	11%	5%	2%	1%

A12 · SECTION A — YOUR INQUIRY

Work Shorts — Navy / Orange

Protective clothing · warm season

Fabric	Polyester 64% / cotton 33% / elastane 3% twill
Weight	245 g/m²
Construction	Triple stitching on main seams; reinforced stress points; button and zip fly (trousers)
Reflective	Reflective band around each leg
Sizes	EU 46 – 62, European size run

Production Notes

Work shorts on the trouser pattern: same 245 g/m² fabric, same triple stitching, same size run — the warm-season half of the set, with reflective leg band.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

EU Size	46	48	50	52	54	56	58	60	62
Share of quantity	5%	12%	22%	24%	18%	11%	5%	2%	1%

A13 · SECTION A — YOUR INQUIRY

Work Shorts — Black / Lime

Protective clothing · warm season

Fabric	Polyester 64% / cotton 33% / elastane 3% twill
Weight	245 g/m²
Construction	Triple stitching on main seams; reinforced stress points; button and zip fly (trousers)
Reflective	Reflective band around each leg
Sizes	EU 46 – 62, European size run

Production Notes

Black / lime colourway of the work shorts, completing the four-piece bottom range of the inquiry: trousers and shorts, two colourways, one specification.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

EU Size	46	48	50	52	54	56	58	60	62
Share of quantity	5%	12%	22%	24%	18%	11%	5%	2%	1%

A14 · SECTION A — YOUR INQUIRY

Hi-Vis Softshell Jacket — Yellow / Black

Warning clothing · softshell

Fabric	Three-layer bonded softshell, polyester face with membrane
Weight	300 g/m²
Reflective	Transfer (heat-applied) reflective bands and segment details
Construction	Full front zip; zip chest and side pockets; adjustable cuffs and hem; stand collar
Sizes	S – XXXL, European size run

Production Notes

Windproof, shower-resistant warning softshell in fluorescent yellow with black contrast panels. The 300 g/m² bonded fabric carries transfer reflective bands that move with the shell — no cracking, no peeling at the flex points.

Produced to order with your own brand label; care and size labelling to your artwork.

Size Ratio — as per your inquiry

Size	S	M	L	XL	XXL	XXXL
Share of quantity	8%	21%	30%	23%	13%	5%

SECTION A

Size Ratios & Measurement Notes

Tops (S–XXXL) follow the ratio issued with your inquiry — S 5% · M 21% · L 32% · XL 24% · XXL 13% · XXXL 5% — with the softshell jacket on its issued ratio of S 8% · M 21% · L 30% · XL 23% · XXL 13% · XXXL 5%. **Trousers and shorts (EU 46–62)** follow 46 → 5% · 48 → 12% · 50 → 22% · 52 → 24% · 54 → 18% · 56 → 11% · 58 → 5% · 60 → 2% · 62 → 1%.

Grading follows your measurement charts. Where no chart is issued, we grade on standard European workwear blocks and confirm every measurement on the counter-sample before bulk — chest, length, sleeve, waist, inside leg and all tolerance points are listed on the sample report that accompanies each prototype.

Packing is by size ratio as issued: garments folded and polybagged individually, ratio-packed per carton, cartons marked with style, colour and size breakdown. Barcodes and shipping marks are applied to your artwork.

Sampling: counter-samples of any or all fourteen styles can be prepared together in 7–10 working days from confirmation of the specification.

B

Protective Clothing

The core workwear wardrobe — worksuits, jackets, bib pants, trousers, shorts, aprons, vests and tops in cotton and cotton-poly fabrics from 240 to 300 g/m², built for industry, construction, logistics and food production.

Worksuits | Bib pants | Food industry | Aprons & vests | 270–300 g/m² twills

Worksuit / Coverall

One-piece workwear · two colourways

The one-piece worksuit for maintenance, fabrication and plant work: full-length protection with the freedom to bend, climb and kneel, in heavy twill that stands up to daily industrial washing.

Specification

- **Fabric:** cotton or cotton-polyester twill, 270–300 g/m^2
- **Construction:** two-way front zip with storm flap; action back pleats; elasticated waist back
- **Pockets:** chest, side, back and ruler pockets, bar-tacked at stress points
- **Options:** knee-pad pockets, reflective piping, concealed snap front
- **Sizes:** S–XXXL
- **Colours:** navy shown; royal, grey, green and custom colours to order

Produced to order to your tech file — your fabric, sizes, colours and label.

Work Jacket

Blouson work jacket

A blouson-style work jacket on the classic European pattern: stand collar, concealed closure, and pockets where working hands expect them. Pairs with our trousers and bib pants as a two-piece programme.

Specification

- **Fabric options:** cotton-polyester twill 260–300 g/m², or 100% cotton
- **Construction:** concealed zip and snap placket; elasticated side waist; pleated back
- **Pockets:** two chest pockets with flaps, two side pockets, sleeve pen pocket
- **Sizes:** S–XXXL
- **Colours:** navy, royal, grey, black, green — two-tone executions on request

Produced to order to your tech file — your fabric, sizes, colours and label.

Bib Pants

Bib & brace trousers

Bib and brace trousers with adjustable elastic braces, a bib pocket for tools and notes, and knee-pad pockets as standard — the tradesman's trouser across construction and installation work.

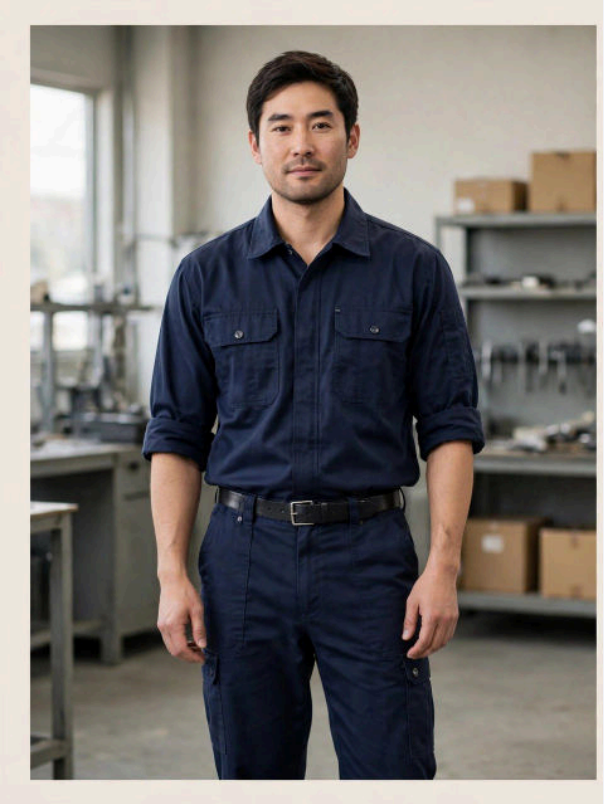

Specification

- **Fabric options:** cotton-polyester twill 270–300 g/m² with elastane option
- **Construction:** adjustable braces with fix-lock buckles; elastic back waist; triple-stitched main seams
- **Pockets:** bib pocket with zip, side, back, thigh and ruler pockets
- **Sizes:** EU 46–62 (short / regular / long legs on request)
- **Options:** knee-pad pockets, hammer loop, reflective piping

Produced to order to your tech file — your fabric, sizes, colours and label.

Work Trousers

Straight work trousers

Straight work trousers in hard-wearing twill — the bottom half of the standard workwear set, cut with room to work and reinforced wherever trousers wear first.

Specification

- **Fabric options:** cotton-polyester 245–300 g/m², elastane comfort option
- **Construction:** triple stitching; reinforced knee area; YKK zip fly
- **Pockets:** side, back with flaps, thigh cargo and mobile-phone pocket
- **Sizes:** EU 46–62
- **Colours:** navy, black, grey, royal and custom

Produced to order to your tech file — your fabric, sizes, colours and label.

Work Shorts

Warm-season work shorts

Cargo work shorts on the trouser block for the warm season and indoor work — same pockets, same reinforcement, cut above the knee.

Specification

- **Fabric options:** cotton-polyester twill 240–280 g/m²
- **Construction:** triple-stitched main seams; bar-tacked pocket corners
- **Pockets:** cargo thigh pockets, side and back pockets, tool loop
- **Sizes:** EU 46–62
- **Colours:** grey shown; navy, black, khaki and custom

Produced to order to your tech file — your fabric, sizes, colours and label.

Work Aprons

Aprons for industry, kitchen & workshop

Bib and waist aprons for food production, kitchens, workshops and retail — in washable, hard-wearing fabrics with ties and pocket layouts to your specification.

Specification

- **Fabric options:** cotton, cotton-polyester, or PU-coated waterproof executions
- **Styles:** bib apron, waist apron, split-leg apron
- **Details:** adjustable neck strap, long waist ties, divided front pockets
- **Sizes:** one size, or S–XXL on request
- **Custom:** embroidered or printed logos; colour to your programme

Produced to order to your tech file — your fabric, sizes, colours and label.

Multi-Pocket Work Vest

Sleeveless work gilet

A sleeveless multi-pocket vest for supervisors, drivers and warehouse teams — carrying capacity without the bulk of a jacket, worn over any base layer.

Specification

- **Fabric options:** cotton-polyester twill or ripstop, 200–260 g/m²
- **Construction:** full front zip; mesh lining option for summer
- **Pockets:** chest, bellows and inside pockets; phone and pen slots
- **Sizes:** S–XXXL
- **Colours:** dark grey shown; navy, black and custom

Produced to order to your tech file — your fabric, sizes, colours and label.

Food-Industry Clothing

HACCP-oriented workwear

Workwear for food production and processing: smooth constructions without external buttons, metal-free closure options, and fabrics that hold white — or your colour code — through industrial laundering.

Specification

- **Fabric options:** polyester-cotton 190–245 g/m², easy-care and colourfast
- **Construction:** concealed snap closures; no external buttons; inside pockets
- **Range:** coats, jackets, trousers, aprons and tunics as a matched programme
- **Sizes:** XS–XXXL
- **Colours:** white and food-industry colour coding

Produced to order to your tech file — your fabric, sizes, colours and label.

Workwear T-Shirts

Plain knitted work tops

Plain workwear T-shirts in cotton and cotton-poly jersey — the base layer of the workwear wardrobe, built heavier than promotional tees so they survive the wash cycle of a working garment.

Specification

- **Fabric options:** 100% cotton or cotton-polyester, 160–220 g/m²
- **Construction:** crew or V-neck; ribbed collar with elastane; side-seamed
- **Options:** long-sleeve version; chest pocket; printed or embroidered logo
- **Sizes:** S–XXXL
- **Colours:** full standard colour range

Produced to order to your tech file — your fabric, sizes, colours and label.

Sweatshirts

Crew, zip and hooded executions

Workwear sweatshirts in brushed fleece-back jersey — crew neck, zip front and hooded styles — with ribbed cuffs and hems that keep their shape wash after wash.

Specification

- **Fabric options:** cotton-polyester sweat fabric, 260–320 g/m², brushed or unbrushed
- **Styles:** crew neck, quarter-zip, full-zip, hooded
- **Construction:** ribbed cuffs and hem with elastane; reinforced shoulder seams
- **Sizes:** S–XXXL
- **Colours:** navy, black, grey marl, royal and custom

Produced to order to your tech file — your fabric, sizes, colours and label.

Polo Shirts

Piqué work polos

Piqué polo shirts for service, logistics and supervisory roles — a smarter face for the workwear programme with a collar that stays flat and a placket that stays straight.

Specification

- **Fabric options:** cotton or cotton-polyester piqué, 200–230 g/m²
- **Construction:** knitted collar and cuffs; three-button placket; side vents
- **Options:** chest pocket; long sleeves; embroidered logo
- **Sizes:** S–XXXL
- **Colours:** full standard colour range

Produced to order to your tech file — your fabric, sizes, colours and label.

Flannel Work Shirt

Brushed cotton work shirts

Checked flannel work shirts in brushed cotton — the traditional layer for outdoor and workshop work, warm without weight and hard-wearing in daily use.

Specification

- **Fabric:** 100% brushed cotton flannel, 160–190 g/m²
- **Construction:** button front; two flap chest pockets; adjustable cuffs; curved hem
- **Options:** padded quilted execution (see Section D); long or short sleeves
- **Sizes:** S–XXXL
- **Colours:** red/black, green/navy and classic checks

Produced to order to your tech file — your fabric, sizes, colours and label.

Flame-Retardant Protective Coverall

Heat & flame programmes

Protective coveralls for welding and hot-work programmes, manufactured to the construction and material requirements of EN ISO 11611 / EN ISO 11612 programmes — flame-retardant fabrics, covered closures and antistatic executions to EN ISO 1149-5 requirements, all built to your specification.

Specification

- **Fabric options:** FR-treated cotton and aramid-blend fabrics, 260–350 g/m², to your nominated specification
- **Construction:** covered two-way zip; storm flap; action back; elasticated waist
- **Details:** FR thread throughout; metal-free options; reflective FR tape on request
- **Sizes:** S–XXXL
- **Note:** fabric and programme requirements agreed style by style before sampling

Produced to order to your tech file — your fabric, sizes, colours and label.

C

Hi-Vis / Warning Clothing

Warning clothing manufactured to the construction and material requirements of EN ISO 20471 — fluorescent fabrics with retro-reflective tape in programme layouts, from the lightest vest to the winter parka.

- EN ISO 20471 framework
- Class 1–3 layouts
- Sewn or transfer tape
- Yellow & orange

Hi-Vis Vest

Warning vest · hook-and-loop front

The universal warning vest: fluorescent knitted fabric with reflective bands around the torso and over the shoulders, in the lightest construction of the range.

Specification

- **Fabric:** 100% polyester knitted fluorescent fabric, 120–160 g/m²
- **Construction:** hook-and-loop front; bound edges; bands over shoulders and around torso
- **Framework:** manufactured to the construction and material requirements of EN ISO 20471 (Class 1, 2 or 3 tape layouts to your programme)
- **Tape:** sewn retro-reflective tape or heat-transfer segmented tape
- **Sizes:** S–XXXL
- **Options:** zip front, ID pocket, mesh summer execution, printed logos

Produced to order to your tech file — your fabric, sizes, colours and label.

Hi-Vis Bomber Jacket 2-in-1

Detachable sleeves · quilted lining

A 2-in-1 warning bomber: zip-off sleeves turn the jacket into a bodywarmer, and the quilted lining carries it through the cold season. Two-tone execution keeps the lower body clean-looking longer.

Specification

- **Fabric:** polyester with PU coating, waterproof execution; quilted polyester lining
- **Construction:** detachable sleeves; ribbed cuffs and hem; concealed hood in collar
- **Pockets:** chest, side and inside pockets; phone pocket
- **Framework:** manufactured to the construction and material requirements of EN ISO 20471 (Class 1, 2 or 3 tape layouts to your programme)
- **Tape:** sewn retro-reflective tape or heat-transfer segmented tape
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

Hi-Vis Parka

Long waterproof warning coat

The long warning parka for winter road and site work — full-length coverage, waterproof construction and a tape layout that stays visible in the worst weather of the year.

Specification

- **Fabric:** polyester / PU coated shell; padded or mesh lining options
- **Construction:** two-way zip with storm flap; drawcord hood; adjustable cuffs and hem
- **Pockets:** chest, cargo and inside pockets
- **Framework:** manufactured to the construction and material requirements of EN ISO 20471 (Class 1, 2 or 3 tape layouts to your programme)
- **Tape:** sewn retro-reflective tape or heat-transfer segmented tape
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

Hi-Vis Softshell Jacket

Bonded softshell · transfer tape

The softshell of Section A (style A14) belongs to this family too: a 300 g/m² bonded softshell with transfer reflective bands — windproof warning protection without hard-shell weight.

Specification

- **Fabric:** three-layer bonded softshell, 300 g/m²
- **Construction:** full zip; zip pockets; adjustable cuffs and hem
- **Framework:** manufactured to the construction and material requirements of EN ISO 20471 (Class 1, 2 or 3 tape layouts to your programme)
- **Tape:** sewn retro-reflective tape or heat-transfer segmented tape
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

Hi-Vis Work Trousers

Trousers with reflective leg bands

Work trousers with reflective leg bands, on the Section A specification (style A10): 245 g/m² polycotton-elastane with triple stitching — warning visibility carried into the bottom half of the set.

Specification

- **Fabric:** polyester 64% / cotton 33% / elastane 3%, 245 g/m²
- **Construction:** triple stitching; reflective band at each leg
- **Sizes:** EU 46–62
- **Colourways:** navy/orange, black/lime, full fluorescent executions on request

Produced to order to your tech file — your fabric, sizes, colours and label.

Hi-Vis Rain Jacket

Waterproof warning jacket

A waterproof warning rain jacket in fluorescent PU-coated polyester with sealed seams — rain protection and visibility in one light garment, built to pair with our rain trousers.

Specification

- **Fabric:** polyester with PU coating, 190 g/m² class; taped / welded seams
- **Construction:** drawcord hood; storm flap over zip; elasticated cuffs; ventilation eyelets
- **Tape:** reflective bands around torso and sleeves
- **Framework:** manufactured to the construction and material requirements of EN ISO 20471 (Class 1, 2 or 3 tape layouts to your programme)
- **Tape:** sewn retro-reflective tape or heat-transfer segmented tape
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

D

Insulated Clothing

Cold-protection clothing manufactured to the construction and material requirements of EN 342 and EN 14058 — padded sets, winter parkas, insulated bib pants, fleece and thermoactive layers for the cold season.

- EN 342 / EN 14058 framework
- Padded & quilted
- Fleece 320 g/m²
- Thermoactive layers

D1 · SECTION D — INSULATED CLOTHING

Insulated Winter Parka

Heavy padded winter jacket

A heavy padded winter parka for outdoor work in deep cold: thick insulation, a protective hood and a shell that sheds wind and snow — the top layer of the winter programme.

Specification

- **Shell:** polyester or cotton-poly canvas with water-repellent finish
- **Insulation:** polyester wadding, 200–300 g/m² class, quilted to lining
- **Construction:** hood with drawcord; two-way zip with storm flap; ribbed inner cuffs
- **Pockets:** chest, cargo, sleeve and inside pockets
- **Sizes:** S–XXXL
- **Colours:** navy shown; black, grey and hi-vis executions (Section C)

Produced to order to your tech file — your fabric, sizes, colours and label.

Insulated Set — Jacket & Trousers

Matched winter two-piece

A matched insulated set: padded jacket and padded trousers built as one programme — same shell, same insulation, one size ratio across both pieces.

Specification

- **Shell:** durable polyester-cotton or polyester canvas
- **Insulation:** quilted polyester wadding throughout both pieces
- **Jacket:** zip and storm flap, ribbed cuffs, drawcord hem
- **Trousers:** elastic waist, reinforced knees and seat
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

Insulated Trousers

Padded winter trousers

Padded trousers for cold-store, outdoor and winter site work — insulation where the cold reaches first, with reinforcement at knees and seat.

Specification

- **Shell:** polyester-cotton twill or polyester canvas
- **Insulation:** quilted polyester wadding with soft lining
- **Construction:** elasticated waist sides; reinforced knees; ankle zips or snaps
- **Sizes:** EU 46–62 / S–XXXL
- **Options:** bib execution (D4); reflective piping

Produced to order to your tech file — your fabric, sizes, colours and label.

Insulated Bib Pants

Padded bib & brace

Insulated bib pants: the padded protection of D3 carried up over the kidneys and chest, on adjustable braces — the cold-weather choice for all-day outdoor work.

Specification

- **Shell:** hard-wearing polyester-cotton canvas
- **Insulation:** quilted wadding through body and legs
- **Construction:** adjustable elastic braces; chest bib pocket; side leg zips for boots
- **Sizes:** S–XXXL
- **Options:** knee-pad pockets; reflective bands

Produced to order to your tech file — your fabric, sizes, colours and label.

Thermoactive Underwear

Base-layer top & bottoms

Thermoactive base layers — long-sleeve top and long bottoms in knitted technical fabric that moves moisture away from the skin and holds warmth under the workwear layers.

Specification

- **Fabric:** polyester or polyester-elastane knitted thermo fabric, 200–260 g/m²
- **Construction:** flatlock seams; elastic waistband; fitted athletic cut
- **Details:** brushed inside option; odour-control finishes on request
- **Sizes:** S–XXXL
- **Colours:** black, navy, grey

Produced to order to your tech file — your fabric, sizes, colours and label.

Insulated Vest

Padded bodywarmer

A padded sleeveless bodywarmer for layered warmth with free arms — over a sweatshirt in autumn, under a parka in deep winter.

Specification

- **Shell:** polyester or cotton-poly with water-repellent finish
- **Insulation:** quilted polyester wadding; fleece collar lining
- **Construction:** full zip; extended back; elasticated armholes
- **Pockets:** chest, side and inside pockets
- **Sizes:** S–XXXL

Produced to order to your tech file — your fabric, sizes, colours and label.

D7 · SECTION D — INSULATED CLOTHING

Padded Work Shirt

Quilted shirt-jacket

The traditional padded work shirt: a checked flannel face with quilted warm lining — a shirt's freedom with a jacket's warmth, for workshop and outdoor work.

Specification

- **Face:** brushed cotton flannel checks
- **Lining:** quilted polyester wadding on taffeta
- **Construction:** snap or button front; two chest pockets; adjustable cuffs
- **Sizes:** S–XXXL
- **Colours:** classic workwear checks

Produced to order to your tech file — your fabric, sizes, colours and label.

Fleece Jacket 320 g/m²

Heavy polar fleece layer

A plain heavyweight fleece jacket — 320 g/m² polar fleece, anti-pill on both faces — as a mid-layer or a standalone cool-weather jacket.

Specification

- **Fabric:** 100% polyester polar fleece, 320 g/m², anti-pill
- **Construction:** full zip; stand collar; two zip side pockets; elastic cuffs and hem
- **Options:** zip-off sleeves; reinforced shoulder and elbow panels; embroidered logo
- **Sizes:** S–XXXL
- **Colours:** navy shown; black, grey, royal, green

Produced to order to your tech file — your fabric, sizes, colours and label.

Fleece Vest

Sleeveless polar fleece

A sleeveless fleece vest on the D8 fabric — core warmth for drivers, warehouse and supervisory roles, layered over shirts and polos.

Specification

- **Fabric:** 100% polyester polar fleece, 280–320 g/m²
- **Construction:** full zip; stand collar; zip pockets; elasticated hem
- **Sizes:** S–XXXL
- **Colours:** charcoal shown; navy, black and custom

Produced to order to your tech file — your fabric, sizes, colours and label.

Thermo Socks

Insulated work socks

Knitted thermo work socks with a looped terry inside for warmth and cushioning — the finishing piece of the cold-protection programme, packed under your label.

Specification

- **Fabric:** cotton / acrylic / polyester blends with elastane
- **Construction:** terry-loop cushioning; reinforced heel and toe; ribbed leg
- **Sizes:** EU 39–42, 43–46
- **Packing:** pairs packed and labelled to your artwork

Produced to order to your tech file — your fabric, sizes, colours and label.

E

Rainwear

Waterproof rainwear in polyester with PU coating — welded and taped seams, storm closures and generous cuts that go over workwear. Jackets, trousers, sets and ponchos in navy, green and warning yellow.

- PU-coated polyester
- Welded / taped seams
- Sets & separates
- 190 g/m² class

E1 · SECTION E — RAINWEAR

Rain Jacket

Hooded waterproof jacket

A hooded rain jacket in PU-coated polyester: light, fully waterproof and cut to wear over a jacket, with a storm flap and ventilation where a working wearer needs it.

Specification

- **Fabric:** polyester with PU coating, 190 g/m² class
- **Seams:** welded / taped for waterproofing
- **Sizes:** S–XXXL
- **Construction:** drawcord hood in collar or attached; zip with storm flap; elasticated / snap cuffs; back ventilation yoke
- **Pockets:** two front pockets with flaps
- **Colours:** navy shown; green, black, yellow

Produced to order to your tech file — your fabric, sizes, colours and label.

Rain Trousers

Waterproof over-trousers

Waterproof over-trousers on an elastic waist — pulled on over work trousers in seconds, with ankle adjustment for boots.

Specification

- **Fabric:** polyester with PU coating, 190 g/m² class
- **Seams:** welded / taped for waterproofing
- **Sizes:** S–XXXL
- **Construction:** elastic waist with drawcord; snap-adjustable ankles; side openings on request
- **Colours:** navy, green, black, yellow

Produced to order to your tech file — your fabric, sizes, colours and label.

E3 · SECTION E — RAINWEAR

Rain Set

Jacket & trousers suit

The complete rain suit: hooded jacket and trousers in one PU-coated fabric, packed as a set in a carry bag with your label — the standard issue for outdoor crews.

Specification

- **Fabric:** polyester with PU coating, 190 g/m² class
- **Seams:** welded / taped for waterproofing
- **Sizes:** S–XXXL
- **Set:** hooded jacket + elastic-waist trousers, matched fabric and colour
- **Packing:** set packed in a printed carry bag to your artwork
- **Colours:** yellow shown; navy, green, orange

Produced to order to your tech file — your fabric, sizes, colours and label.

E4 · SECTION E — RAINWEAR

Rain Poncho

One-size waterproof poncho

A one-size rain poncho with hood and side snaps — event, visitor and emergency-issue rain protection at the lowest unit weight of the range.

Specification

- **Fabric:** polyester with PU coating, 190 g/m² class
- **Seams:** welded / taped for waterproofing
- **Sizes:** S–XXXL
- **Construction:** attached hood with drawcord; snap sides; one size
- **Packing:** individually bagged with your printed card
- **Colours:** green shown; navy, yellow, transparent on request

Produced to order to your tech file — your fabric, sizes, colours and label.

F

Medical Scrubs

Medical workwear from our healthcare lines: scrub sets for men and women, wrap tops, theatre scrubs and doctor coats — colourfast, easy-care fabrics that hold their colour through industrial laundering.

- Men & women
- Colour-coded ranges
- Industrial-wash durable
- XS–3XL

F1 · SECTION F — MEDICAL SCRUBS

Women’s Scrub Set

V-neck tunic & trousers

A shaped V-neck scrub tunic with matching trousers — cut for a full shift of bending, lifting and walking, with department colour coding available across the range.

Specification

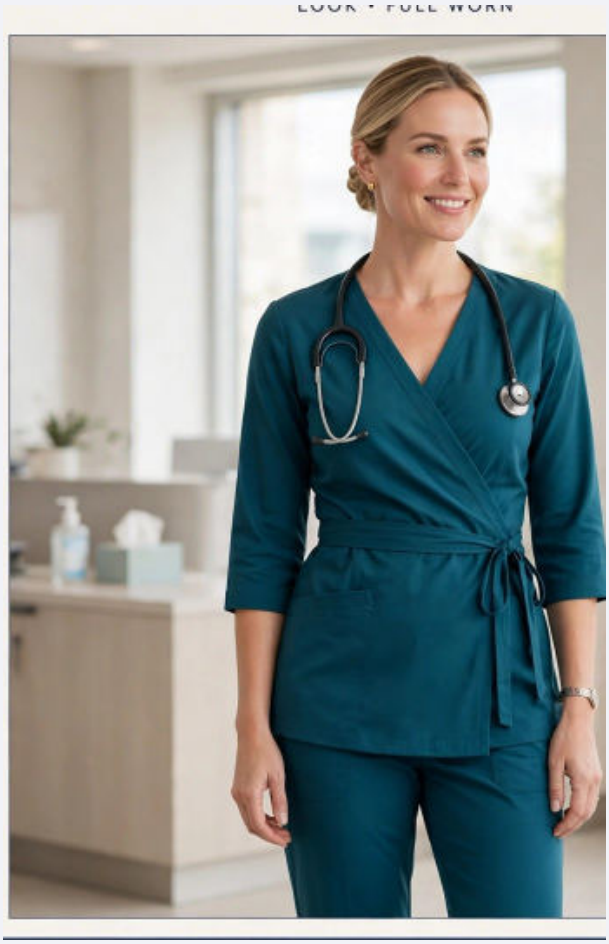

- **Fabric:** polyester-cotton performance blend, easy-care and colourfast
- **Construction:** V-neck tunic with utility pockets and side vents; trousers with elastic-drawstring waist
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

F2 · SECTION F — MEDICAL SCRUBS

Women’s Wrap Scrub Top

Wrap-front tunic

A wrap-front scrub top with a defined waist — the more tailored face of the scrub range, paired with the same trousers as F1 for a single programme.

Specification

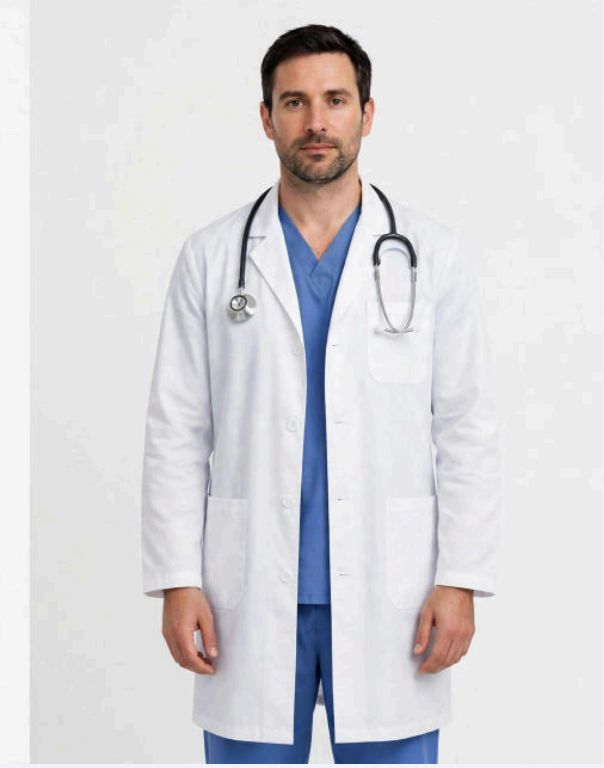

- **Fabric:** polyester-cotton blend, easy-care
- **Construction:** wrap front with tie / snap security; two patch pockets; shaped waist
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

F3 · SECTION F — MEDICAL SCRUBS

Men’s Scrub Set

Unisex / men’s block

The men’s scrub set on a straighter block: V-neck top with chest and side pockets, drawstring trousers, in the same colourfast fabric family as the women’s range.

Specification

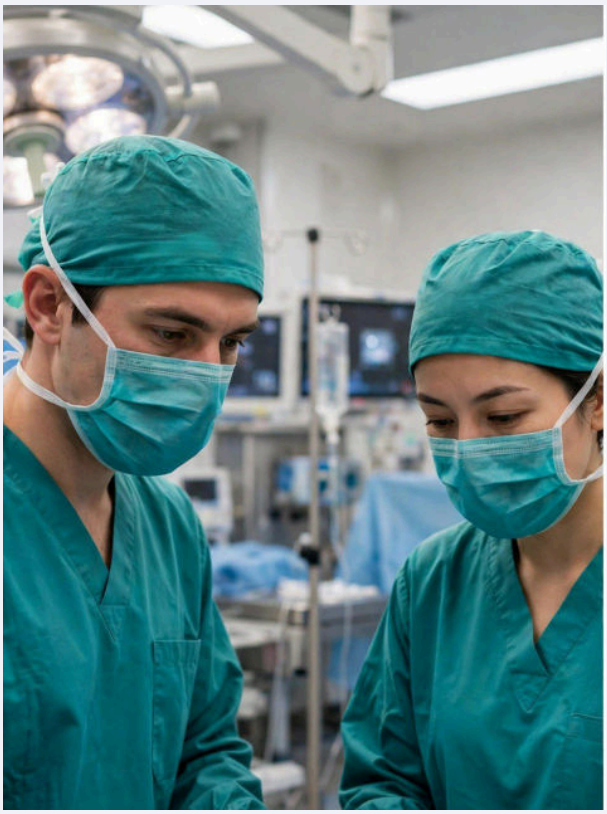

- **Fabric:** polyester-cotton blend, colourfast at 60–75 °C washes
- **Construction:** V-neck top; drawstring trousers with back pocket; bar-tacked stress seams
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

F4 · SECTION F — MEDICAL SCRUBS

Surgical / OT Scrubs

Theatre wear

Theatre scrubs built for sterile environments — sets that hold colour and shape through industrial laundering and autoclave cycles, in surgical colourways.

Specification

- **Fabric:** antistatic-option polyester-cotton scrub fabric; fluid-resistant finish on request
- **Construction:** V-neck top with utility pockets; drawstring trousers; reinforced seams
- **Colours:** surgical teal, green, blue — colour-coded by department
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

Scrub Pants

Trouser detail

The scrub trouser up close: elastic-drawstring waist, clean front, pockets placed for ward work, and a fabric face that stays smooth through the laundry cycle.

Specification

- **Fabric:** polyester-cotton blend, easy-care
- **Construction:** elastic back with drawstring front; side and back pockets; straight or tapered leg options
- **Matching:** one trouser pattern across the whole scrub programme
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

F6 · SECTION F — MEDICAL SCRUBS

Doctor Coats

Consultation & laboratory coats

Tailored doctor and laboratory coats in crisp poly-cotton twill that stays white and structured wash after wash — with reinforced instrument pockets and name embroidery.

Specification

- **Fabric:** crisp polyester-cotton twill, crease-resistant; stain-release finish on request
- **Construction:** tailored collar; reinforced patch pockets; sleeve pen slot; back vent and belt
- **Colours:** white; pale blue on request
- **Sizes:** XS–3XL, ladies and unisex blocks
- **Labelling:** your label; embroidered names and departments on request

Produced to order to your tech file — your fabric, sizes, colours and label.

G

Gloves

Protective and work gloves across the full hand-protection wardrobe — leather, welding, coated, cut-resistant, heat-insulating, textile, chemical and disposable — produced to your specification, in sizes 7–11, packed under your label.

- Leather & welding
- Coated & cut-resistant
- Heat & chemical
- Sizes 7–11

G1 · SECTION G — GLOVES

Protective Gloves

Hand protection — produced to your specification and size run

Impact / Rigging Gloves

- TPR dorsal shield over knuckles and fingers
- Silicone grip palm for wet and oily handling
- Cut-resistant lining; neoprene cuff with pull tab

Leather Work Gloves

- Split cowhide leather, abrasion grade
- Reinforced palm patches and fingers
- Safety-cuff or gauntlet lengths; shirred elastic back

Sizes 7–11 across the glove range; packing in pairs with your header card and labelling.

Protective Gloves

Hand protection — produced to your specification and size run

Welding Gloves

- Split cowhide gauntlets, 35–40 cm lengths
- Heat-resistant stitching; cotton fleece lining
- Manufactured to the construction requirements of welding-glove programmes (EN 12477 framework)

Coated Work Gloves

- Knitted seamless liners with nitrile, latex or PU coatings
- Full coat, palm coat and dotted executions
- Breathable backs; colour-coded by size

Sizes 7–11 across the glove range; packing in pairs with your header card and labelling.

Protective Gloves

Hand protection — produced to your specification and size run

Cut-Resistant Gloves

- HPPE / steel-fibre knitted shells, cut levels to your programme
- Sandy nitrile or PU palm coating for grip
- Food-industry executions available

Heat-Insulating Gloves

- Aluminised and leather combinations for radiant heat
- Aramid stitching; wool / cotton thermal linings
- Gauntlet lengths to specification

Sizes 7–11 across the glove range; packing in pairs with your header card and labelling.

Protective Gloves

Hand protection — produced to your specification and size run

Textile / Cotton Gloves

- White and natural cotton knitted gloves
- PVC dot grip palms; ambidextrous executions
- Liner gloves for coated programmes

Insulated Gloves

Product photography
available on request

- Insulated winter work gloves with thermal linings
- Leather and synthetic shells with fleece / foam insulation
- Extended cuffs for cold-store and outdoor work
- *Photography of this line available on request — produced to the same specification discipline as every glove in this section.*

Sizes 7–11 across the glove range; packing in pairs with your header card and labelling.

Protective Gloves

Hand protection — produced to your specification and size run

Chemical / Food-Contact Gloves

- Nitrile and latex gauntlets for chemical handling
- Food-contact suitable executions to your specification
- Flock-lined and unlined; lengths 30–45 cm

Disposable Gloves

- Nitrile, vinyl and latex disposable gloves
- Powder-free; textured fingertips
- Packed 100 per dispenser box, your printed artwork

Sizes 7–11 across the glove range; packing in pairs with your header card and labelling.

CLOSING

Fabrics & Materials

Every programme starts with the fabric. We buy against your specification — composition, weight, weave and finish — from audited mills, and we check every delivery for weight, shade and defects before cutting. Cotton and cotton-poly twills for protective clothing, polar fleece to 340 g/m², bonded softshells, PU-coated rainwear fabrics, FR and antistatic fabrics to nominated specifications: if your tech file names it, we source it — or match it against your swatch and a lab dip for approval.

Fabric range. Workwear twills, fleece and technical fabrics, checked on arrival.

Stock & sourcing. Rolls held for running programmes so repeats start without delay.

CLOSING

Customisation — Embroidery, Printing & Your Label

Your garments leave our factory already carrying your identity. Embroidery and printing are done in-house, and every label, hang tag and carton mark is produced to your artwork.

Embroidery & printing. Chest logos, names and departments — stitched or printed to your artwork.

Private label. Your woven brand label sewn in as standard; “Made in [Your Country]” tags on request, otherwise “Made in Pakistan”.

Reflective-tape layouts, pocket configurations, colour blocking and trims are all customisable per style — the catalogue constructions are starting points; your tech file is the final word.

CLOSING

Third-Party Inspection Services

Beyond our own production, Safe-T TECH offers independent inspection services for buyers producing **anywhere in Pakistan** — our inspectors visit the factory, check the goods against your approved sample and specification, photograph everything, and report to you directly.

Initial Production Inspection	Raw materials, components and production readiness checked at the start of an order.
During Production Inspection (DUPRO)	In-line check while production runs — workmanship, measurements and progress verified early enough to correct.
Pre-Shipment / Final Random Inspection	AQL-based final inspection of finished, packed goods against your specification and approved sample.
Container Loading Supervision	Quantity, carton condition and loading verified and photographed as the container is filled and sealed.
Factory Audit	On-site assessment of a supplier's capacity, machinery, QC system and working conditions before you place an order.

Inspection assignments are quoted per job, depending on location and scope. Reports include photographs, measurement tables and a clear pass / fail recommendation.

CLOSING

How to Order

1

Send Your Tech File

A tech file, a sample garment, or clear photographs with measurements and fabric details.

2

Quotation

A full quotation against your specification, quantity and size ratio — no catalogue prices, every style quoted exactly.

3

Counter-Sample

A sample sewn to your file in 7–10 working days, with a measurement report, for your approval.

4

Production

Bulk production in-house — cutting, stitching, finishing — with photo updates on request.

5

Inspection

Documented pre-shipment inspection with photographs included; your own inspector is welcome too.

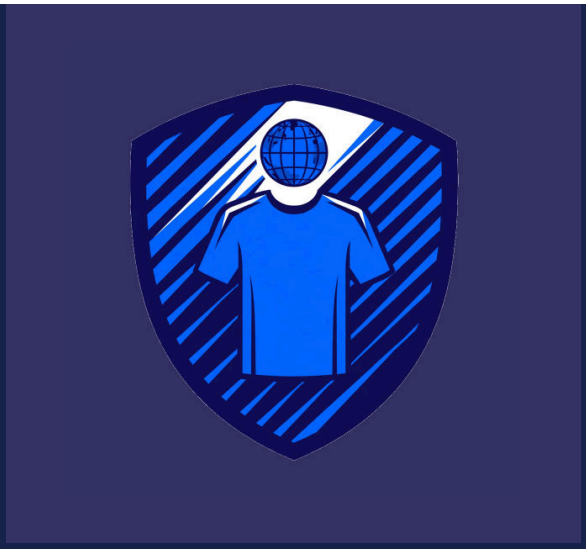

6

Dispatch

Packed to your ratio and labelling, cartons marked to your artwork, dispatched on the agreed date.

Trial orders are welcome from 20 pieces per style. **Share your own design / tech file — we will manufacture it exactly for you.**
