Kits & Team Essentials — Football · Cricket · Basketball · American Football · Baseball · Rugby · Hockey & More

Manufactured in-house · Sialkot, Pakistan · Exporting to North America & Europe

ABOUT US

One Supplier For Every Team Sport

Safe-T TECH International manufactures teamwear in Sialkot, Pakistan — a city with generations of sportswear craftsmanship behind it. Our sports division covers **football, American football, basketball, baseball, cricket, rugby, ice hockey, field hockey, volleyball and handball**, plus the training and travel essentials every squad needs.

Everything is made **in-house** — pattern making, cutting, sublimation printing, stitching, finishing and quality control — so your colours, fabrics and fits stay consistent from the first sample to every reorder. Clubs, schools, academies and sports brands across **North America and Europe** order from us because they can start small: trial quantities of 15–50 pieces per design, with samples ready in 7–10 days.

Send us your club colours or your full design, and we will manufacture it exactly — your badge, your sponsors, your player names and numbers.

FABRICS & TECHNOLOGY

Made To Perform, Built To Last

Interlock

Smooth, stable and opaque — the classic match-kit fabric. Holds colour brilliantly and takes print and embroidery cleanly.

Mesh & Bird-Eye

Open and perforated knits that move air across the body — used for panels, basketball kits and hot-climate teamwear.

Dri-Fit Performance

Moisture-management yarns pull sweat off the skin and dry fast, keeping players lighter through the whole match.

Heavy-Duty Knits

High-GSM spandex and reinforced knits for American football and rugby — stretch where it is needed, strength everywhere.

Sublimation That Lasts

- The design is printed **into** the fabric, not onto it — it cannot crack, peel or fade in the wash.
- Unlimited colours, gradients, patterns, names and numbers in a single print run.
- Colour-matched across jerseys, shorts and reorders.

Reinforced Stitching

- Double-needle seams on match kits; bar-tack reinforcement at stress points on contact-sport garments.
- Flatlock options for next-to-skin comfort in fitted kits.

Choosing Your Fabric

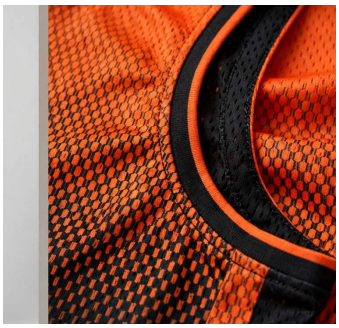

- Tell us your sport, climate and budget — we recommend the right GSM and knit, and sample it before you commit.
- Every product page in this catalogue lists its standard fabric; all of them can be adjusted to your specification.

Care

- Machine wash cold, inside out. Sublimated kits keep their colour wash after wash — no special treatment needed.

CUSTOMIZATION

Your Club, Your Colours, Your Badge

Design Options

- **Any club colours** — matched to your swatch or your current kit.
- **Full-sublimation all-over designs** — patterns, gradients and artwork across every panel.
- **Names & numbers** — player names, squad numbers and sponsor positions printed or applied in your font.
- **Sponsor prints** — front, back and sleeve placements, sized to league rules.

Badges & Finishing

- **Embroidered badges** for a premium stitched crest, or printed badges for a modern flat look.
- Woven labels, printed size marks and your own neck tape.
- Individual player packing — each kit folded and bagged with the player's name.
- Your design made exactly: send artwork or a tech file and the sample follows it line for line.

MADE TO YOUR DESIGN

Send us your design, tech file or even a photo — we manufacture it exactly to your specifications: your fabric quality, your sizes, your colours. Your brand, your tags: we sew in **your brand label**, and a 'Made in [Your Country]' tag if you want it — otherwise we use our standard 'Made in Pakistan' tag.

Fitting Notes

Match kits are graded in an athletic fit; training and travel wear carries a little more ease. American football jerseys are sized to fit over pads, and ice hockey jerseys follow the traditional loose cut. Trousers, pants and skirts are graded per sport — ask for the garment-specific chart with your sample. Mixed adult + youth squad orders are welcome in one production run.

TEAM ORDERING GUIDE

From Design To Match Day

1. **Share Your Design**
   Send your design, tech file, club colours or even a photo of your current kit — plus sizes and quantities per size.
2. **Sampling**
   We manufacture your sample in 7–10 working days and share detailed photos (or ship it) for your approval.
3. **Approval & Order**
   Once the sample is approved, confirm the order. Sizes, names and numbers lists are checked with you before production.
4. **Production**
   Your kits are cut, printed, stitched and finished in-house. Bulk lead time is confirmed per order, based on quantity and design.
5. **Quality Control**
   Every garment is checked — measurements, print, stitching and names/numbers — before packing.
6. **Dispatch**
   Kits are folded, bagged (individually by player if requested) and dispatched with tracked shipping.
