ABOUT US

Streetwear, Built Heavyweight

Safe-T TECH International is a Sialkot-based clothing manufacturer with a dedicated streetwear and outerwear division. We make the pieces streetwear is judged by — **heavyweight hoodies at 450–500 GSM**, varsity jackets, boxy tees, cargos and joggers — all cut, stitched, embellished, finished and quality-checked under one roof.

Our in-house **embellishment studio** covers the full decoration map: screen and puff printing, machine embroidery, chenille patches and hot-fix rhinestones. That means your plain blanks and your decorated statements come from the same factory, the same fabrics and the same quality standard — with no hand-offs and no surprises.

We work with **emerging and established streetwear brands** across North America and Europe. Trial quantities of 15–50 pieces per design let you test a drop before committing to volume, with patterns, fabrics and prints held ready for your reorders. Send us a design or tech file and we return a finished sample in 7–10 working days.

FABRICS & WEIGHTS

Weight Is Quality You Can Feel

Brushed Fleece — 350–500+ GSM

The streetwear standard. Higher GSM means a denser, warmer, longer-lasting hoodie with a premium hand-feel. Our flagship fleece runs to 500 GSM; lighter 350 GSM options suit transitional ranges.

French Terry & Loopback

Unbrushed loops inside for breathability — the fabric of crewnecks, joggers and summer sets. 280–360 GSM, soft against skin and easy to print and embroider.

Heavyweight Jersey — 240–320 GSM

Tees with real substance. Dense cotton jersey that drapes instead of clinging, holds a collar, and gives prints a smooth, stable base.

Denim, Twill & Nylon Shells

10–12 oz denim for truckers, cotton twill for cargos, melton wool-blend for varsity bodies, and matte nylon shells for puffers, bombers and coach jackets.

What GSM Means For Your Buyer

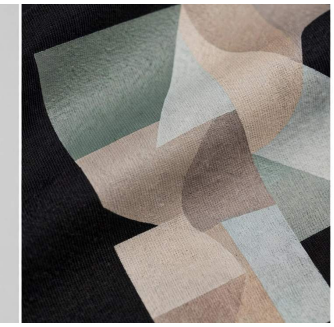

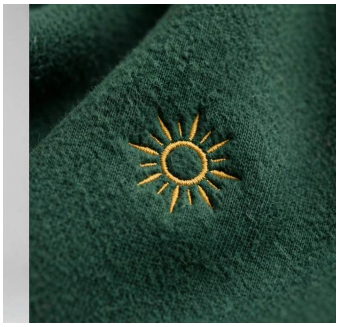

- **GSM** = grams per square metre — the weight, and a direct read on warmth, drape and durability.
- A 240 GSM tee feels twice the garment of a standard 160 GSM promo tee — customers notice instantly.
- Heavyweight fabrics cost a little more and return it in perceived value, reviews and repeat orders.
- Every fabric in this catalogue can be adjusted up or down in weight to hit your price and feel targets.

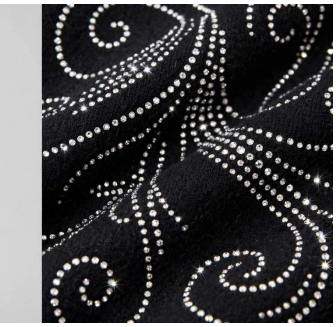

Finishes As Standard

- Pre-shrunk and bio-washed options so sizes stay true after washing.
- Anti-pill treatments on fleece; colourfast dyeing across reorders.
- Garment dye and vintage washes for lived-in colour stories.
- Fabric is inspected and shade-banded before cutting; every garment is measured, checked and pressed before packing.

CUSTOMIZATION & PRIVATE LABEL

Your Design, Made Exactly

The Embellishment Studio

- **Screen print** — water-based and plastisol inks, sharp at any size.
- **Puff print** — raised, dimensional prints for chest and back hits.
- **Embroidery** — dense machine stitching, up to 12 thread colours.
- **Chenille patches** — letters, mascots and shapes, stitched not glued.
- **Rhinestones** — hot-fix layouts mapped to your artwork and wash-tested.

Made To Your Specification

- Any style in this catalogue adapted: fit, weight, colours, trims and hardware.
- Your size chart and grading followed exactly, XS–3XL and beyond.

Your Brand, Finished

- Your woven labels and size labels sewn in as standard.
- Your hang tags, care labels and branded trims.
- Your packaging — polybags, boxes and retail-ready finishing.
- Barcode and retail ticketing applied on request.

How It Starts

- Share the design — sampling takes 7–10 working days, and we share photos or ship the sample for your approval before any production.

MADE TO YOUR DESIGN

Send us your design, tech file or even a photo — we manufacture it exactly to your specifications: your fabric quality, your sizes, your colours. Your brand, your tags: we sew in **your brand label**, and a ‘Made in [Your Country]’ tag if you want it — otherwise we use our standard ‘Made in Pakistan’ tag.

3XL	46 in · 117 cm	32 in · 81 cm	40 in · 102 cm

Hoodies, Tees & Tops

Graded on chest with fit ease by style: regular fits carry 2–3 in of ease, oversized and boxy styles carry 5–7 in. Lengths grade proportionally; cropped and tall options on request.

Bottoms & Joggers

Graded on waist with elastic and drawstring tolerance of ±2 in. Inside-leg lengths are graded by size; cargos and wide-leg styles keep a longer, stacked break as standard.

Jackets & Headwear

Jackets grade on chest with layering ease built in, so a hoodie fits under a varsity or puffer. Caps are one size with an adjustable strap; beanies are one size in double-layer rib knit.

Fitting Notes

Heavyweight fabrics are cut with their weight in mind — a 500 GSM hoodie is patterned to sit structured, not tight. If your market runs a different fit block, we grade to your measurements instead at no change to sampling time.

ORDERING GUIDE

From Design To Delivery

1. **Share Your Design**
   Send your tech file, design or reference picture — plus fabric, weight, colour and size requirements.
2. **Sampling**
   We make your sample in 7–10 working days and share photos (or ship it) for your approval.
3. **Approval & Order**
   Once the sample is approved, confirm quantities and sizes. Quantities, timelines and terms are agreed in writing on the order confirmation.
4. **Production**
   Your order is cut, stitched and embellished in-house, with your labels, tags and packaging applied during finishing.
5. **Quality Control & Dispatch**
   Every piece is measured, checked and pressed before careful packing and dispatch.

WHY SAFE-T TECH

Why Brands Choose Safe-T TECH

Low Trial MOQ

15–50 pieces per design. Test a hoodie weight, a print or a whole drop before you commit to volume — real production quality, not sample-room compromises.

Heavyweight Quality

Fleece to 500 GSM and tees to 320 GSM. The weight and finish your customers feel the moment they pick the garment up — and the reason they come back.

Embellishment Under One Roof

Screen and puff print, embroidery, chenille and rhinestones — all in-house alongside cutting and stitching. One factory, one standard, no hand-offs.

Consistent On Reorders

Your patterns, fabrics, dye lots and print screens are recorded with us, so drop five matches drop one — in fit, colour and feel.
