THE DIVISION

Uniforms & Protective Workwear, Made In-House

Safe-T TECH International operates a dedicated uniforms and protective workwear division from Sialkot, Pakistan — the country's manufacturing hub. We produce healthcare uniforms, certified firefighter turnout gear, industrial protective coveralls and severe-duty gloves, and we outfit institutions of every kind with made-to-order uniforms under their own labels.

One factory, every profession: healthcare, fire service, industry, hospitality and security — all produced under one roof.

20 pcs	7–10 days	AQL 2.5	100% in-house
TRIAL MOQ PER STYLE	TYPICAL SAMPLING	PRE-SHIPMENT AUDITS	CUTTING TO DISPATCH

WHO WE SUPPLY

- **Hospitals & clinics** — nurse uniforms, doctor coats and theatre wear.
- **Fire & civil protection** — turnout suits built to certified specifications.
- **Industry & energy** — protective coveralls and impact rig gloves.
- **Institutions** — security, hospitality, corporate and school uniforms.

WHY BUYERS CHOOSE US

- **Start small** — pilot any style from just 20 pieces before scaling.
- **Your specification, exactly** — fabric, GSM, colours and sizing to your tech pack.
- **Private label throughout** — your labels, tags and packaging, our factory.
- **Export-ready** — DHL/FedEx air from Sialkot, sea freight via Karachi Port.

PRODUCT LINE 01 — HEALTHCARE

Healthcare Uniforms

Hospital-grade uniforms built for long shifts: nurse uniforms that move with the wearer, and doctor white coats and gowns with the crisp, professional finish clinical teams expect.

Left: nurse uniform tunic and trouser set. Right: doctor's white coat with stethoscope pocket and tailored collar.

NURSE UNIFORMS — HOSPITAL

- **Tunic & trouser sets** — V-neck, mock-wrap and classic collar styles.
- Poly-cotton and performance blends — breathable, colourfast, easy-care.
- Utility pockets, side vents and action backs for full-shift mobility.
- Department colour coding — any colour, matched to your hospital's system.

DOCTOR WHITE COATS & GOWNS

- **Consultation coats** — full and half length, tailored or classic fit.
- Patient and examination gowns with tie or snap closures.
- Reinforced pockets for instruments, tablets and ID; pen slots on sleeve.
- Embroidered names, departments and hospital logos on the chest.

MOQ **20 pcs / style** | Samples **7–10 days** | Sizes **XS–3XL + tailored** | Branding **Embroidery**

PRODUCT LINE 01 — HEALTHCARE

Operation Theatre & Scrubs

Theatre wear engineered for sterile environments — operation-theatre uniforms and scrub sets that hold their colour and shape through industrial laundering, shift after shift.

Left: surgical team in OT scrubs, caps and gowns. Right: scrub and coat construction details — stitching, pockets and closures.

THE OT RANGE

- **Scrub sets** — unisex and fitted cuts, V-neck and round-neck tops.
- **Surgical gowns** — wrap-around and standard styles, knit cuffs.
- Theatre caps, masks and drapes to complete the set.
- Anti-static and fluid-resistant finish options on request.

BUILT FOR THE LAUNDRY CYCLE

- Industrial-wash durable fabrics — high colourfastness at 60–75°C.
- Bar-tacked pocket corners and reinforced stress seams.
- Autoclave-friendly constructions for theatre departments.
- Consistent sizing across repeat orders — graded patterns held on file.

MOQ **20 pcs / style** | Samples **7–10 days** | Colours **Any — colour-coded** | Care **Industrial wash**

PRODUCT LINE 02 — FIRE PROTECTION

Firefighter Turnout Suits

Structural firefighting ensembles built as a certified three-layer system — supplied with certificates, and aligned to EN 469 / NFPA specifications as detailed in our technical documentation.

Turnout coat and trouser ensemble, and construction details: aramid shell, FR reflective bands and heavy brass hardware.

THE LAYER SYSTEM

- **Outer shell:** 200–220 GSM aramid / Nomex® blend — inherent flame resistance.
- **Moisture barrier:** breathable PTFE membrane keeps water out, lets heat escape.
- **Thermal lining:** quilted aramid thermal felt for radiant-heat protection.

HARDWARE & VISIBILITY

- **3M Scotchlite™ FR bands** — silver reflective trim on coat and trousers.
- **Heavy brass quick-release zip** with storm flap and hook-and-dee options.
- Drag rescue device (DRD), radio and cargo pockets, reinforced elbows and knees.
- **Certificates supplied** — EN 469 / NFPA aligned production documentation.

MOQ **20 sets** | Samples **7–10 days** | Shell **Aramid / Nomex®** | Standard **EN 469 / NFPA aligned**

PRODUCT LINE 03 — INDUSTRIAL PROTECTION

Industrial Protective Coveralls

Heavy-utility coveralls for fabrication, maintenance and plant work — heavyweight twill, triple-stitched at every stress point, and a flame-retardant Proban® line for hot-work environments.

Navy work coverall in the field, and construction details: feldlock seams, utility pockets and action pleats.

NAVY WORK COVERALL

- **280–320 GSM heavy twill** — built for abrasion and daily wear.
- **Triple feldlock stitching** on all stress seams.
- **8 utility pockets**, action pleats at the back for reach and movement.
- Two-tone reflective body bands, as specified in our technical file.

PROBAN® FR COVERALLS

- **Proban® FR cotton, 240–350 GSM range** — flame-retardant treated.
- Two-way non-sparking brass zip with storm flap.
- Knee-pad pockets, rule pockets and tool loops on request.
- Anti-static (EN 1149) configurations available to specification.

MOQ **20 pcs** | Samples **5–7 days** | Fabric **Twill / Proban® FR** | Sizes **S–3XL**

PRODUCT LINE 04 — HAND PROTECTION

Protective Gloves

Severe-duty hand protection from Sialkot's glove-making cluster: impact rig gloves with moulded dorsal armour for oil, gas and drilling crews, and split-leather rigging gloves for heavy handling.

Left: impact rig glove — TPR dorsal shield and grip palm. Right: split-leather rigging glove with reinforced palm.

IMPACT RIG GLOVES — EN 388

- **Sonic-welded TPR dorsal shield** — knuckle and finger impact armour.
- **Silicone non-slip palm** pattern for grip on wet and oily pipe.
- **Kevlar® cut-resistant lining** and Kevlar® thread in high-wear zones.
- Neoprene cuff with pull tab — debris out, easy on and off.

SPLIT-LEATHER RIGGING GLOVES

- **Split cowhide leather** palms and fingers for abrasion-heavy work.
- Reinforced palm patches and shirred elastic backs.
- Safety-cuff and gauntlet lengths available.
- Custom moulded TPR wrist logos and palm prints for private label.

MOQ **20 pairs** | Samples **7–10 days** | Rating **EN 388 impact** | Use **Rig · Drill · Handling**

PRODUCT LINE 05 — MADE-TO-ORDER UNIFORMS

Uniforms for Every Field

Whatever your team does, we dress it. A made-to-order uniform program for every field — designed around your colours, your badge and your working day, from a 20-piece trial onward.

Left: hospitality — chef whites and hotel service uniforms. Right: security and school uniform programs.

THE FIELDS WE DRESS

- **Security** — guard uniforms, epaulettes, belts and insignia.
- **Corporate & office** — shirts, trousers, blazers and staff sets.
- **Hospitality** — chef jackets, aprons, front-of-house and housekeeping.

AND BEYOND

- **Industrial staff** — work shirts, trousers and plant uniforms.
- **Schools** — student uniforms, blazers, ties and PE kits.
- **Any field** — if your team wears it, send the design and we will make it.

MOQ **20 pcs / style** | Samples **7–10 days** | Design **Fully made-to-order** | Branding **Your badge & colours**

MATERIALS

Fabrics & Materials

Protective performance starts with certified technical textiles. We source directly — flame-retardant aramids, Proban® cottons, Kevlar® components and CE-grade impact materials — and verify every lot before cutting.

Left: the turnout layer system — aramid shell, PTFE membrane, thermal felt. Right: heavyweight twills and uniform fabrics in our Sialkot store.

Material Family	Specification	Used In
Aramid / Nomex®	200–220 GSM, inherently flame-resistant	Firefighter turnout shells
PTFE Membrane	Breathable waterproof moisture barrier	Turnout suit mid-layer
Aramid Thermal Felt	Quilted needle-felt insulation	Turnout suit lining
Proban® FR Cotton	240–350 GSM flame-retardant treated	FR coveralls
Heavy Cotton Twill	280–320 GSM utility twill	Navy work coveralls
Poly-Cotton Blends	Easy-care, colourfast uniform fabrics	Healthcare & staff uniforms
TPR + Kevlar®	Sonic-welded armour, cut-resistant lining	Impact rig gloves
Split Cowhide Leather	Abrasion-grade rigging leather	Rigging gloves

Sourcing **Direct & certified** | Lot Check **GSM & colourfastness** | Swatches **On request**

PRIVATE LABEL

Customization & Private Label

Every product in this portfolio ships under your brand. Our in-house branding unit finishes each order with your identity — from the chest embroidery to the export carton.

Left: chest embroidery on a uniform order. Right: woven labels, patches and hangtags ready for application.

ON THE GARMENT

- **Embroidery** — names, logos and department marks, stitched in-house.
- **Patches** — woven, PVC rubber and aramid badges for protective lines.
- **Reflective logos** — heat-applied branding on protective garments.

LABELS & PACKAGING

- **Woven labels & hangtags** — 350–500 GSM cardstock tags with your artwork.
- **Branded polybags** — frosted ziplock protective packaging.
- **Export cartons** — heavy 7-ply boxes, poly-strapped for air and sea.

MADE TO YOUR DESIGN

Send us your design, tech file or even a photo — we manufacture it exactly to your specifications: your fabric quality, your sizes, your colours. Your brand, your tags: we sew in **YOUR brand label**, and a ‘Made in [Your Country]’ tag if you want it — otherwise we use our standard ‘Made in Pakistan’ tag.

ASSURANCE

Quality Control — AQL 2.5

Protective clothing cannot fail in the field, so it does not leave our floor unchecked. Every order passes strict AQL 2.5 audits at material, stitching and pre-shipment stages.

Final inspection at our Sialkot unit — measurement, finish and defect checks before packing.

MATERIAL CHECK

- **GSM test** on every fabric lot against specification.
- Colourfastness and thermal-stability verification.
- Component audit — zips, bands, threads and trims counted and tested.

STITCHING & PRE-SHIPMENT

- **Seam pull test** and thread-tension analysis on production samples.
- **Pre-shipment sizing check** — measured against the graded spec.
- Clean finish and defect elimination; photo report before dispatch.

Standard **AQL 2.5** | Checks **3-stage audit** | Report **Photos pre-dispatch**

HOW WE WORK

OEM Process & Logistics

A direct factory contract, run in four clear steps — you deal with our export desk in Sialkot from tech pack to delivery note.

Production lines at our Sialkot facility — specialist stations for uniforms, protective wear and gloves.

01

Tech Pack

Share design drawings, GSM specs and logos — or even a photo. Exact quotation follows.

02

Sampling

Prototype made and dispatched in 5–10 days for your review and approval.

03

Bulk Audit

Bulk production with 100% piece checks and the AQL 2.5 final audit.

04

Dispatch

Express DHL/FedEx air, or full-container sea freight through Karachi Port.

FACTORY INFRASTRUCTURE

- Automated cutting systems and multi-needle stitching lines.
- Hot-air seam-sealing equipment for waterproof barriers.
- Dedicated lines per product family — uniforms, FR wear, gloves.

GLOBAL DISTRIBUTION

- Air courier clearance via DHL/FedEx directly from Sialkot Airport.
- Full sea-container shipments through Karachi Port.
- 24/7 international trade desk for order tracking and support.

REFERENCE

MOQ & Sampling Matrix

Low, honest minimums across the division — pilot any line from 20 pieces, prove the quality, then scale with confidence.

Product Category	Standard Material & Construction	Custom Private Label Options	Sample Lead	Bulk MOQ
Firefighter Turnout Suits	Aramid outer + PTFE breathable barrier + FR felt	Aramid badges, custom back print, reflective logos	7–10 days	20 sets
Industrial Coveralls	Cotton twill / polycotton / Proban® FR (240–350 GSM)	Chest embroidery, PVC rubber patches, woven labels	5–7 days	20 pcs
Impact Safety Gloves	TPR sonic armour + silicone palm + Kevlar® stitching	Custom moulded TPR wrist logos, silicone palm prints	7–10 days	20 pairs
Nurse Uniforms & Scrubs	Poly-cotton / performance blends, colourfast	Embroidered names & hospital logos, woven labels	7–10 days	20 pcs
Doctor Coats & Gowns	Crisp poly-cotton, reinforced pockets	Chest embroidery, department marks	7–10 days	20 pcs
Uniforms — Every Field	Per-field fabrics to your specification	Full branding: labels, patches, hangtags, polybags	7–10 days	20 pcs

Finished orders folded, bagged and carton-packed for export dispatch.

COOPERATION TERMS

- Exact quotation **after your design or tech file** — precise to the piece.
- Incoterms FOB / CIF / DDP available on bulk orders.
